POWERFLY HOLDER

A true first, first-of-its-kind holder designed to adapt and respond to every skating move. The stiff front post increase energy transfer in every stride, while the flexble back post delivers faster side-to-side motions to help make you unstoppable and uncatchable on the ice.

POWERFLY

CARBON CONNECT OUTSOLE C.Y.B.

Stiffens the lower portion of the skate to increase the power of every stride. Paired with the "Choose Your Blade" freedom, players can find the right combination to increase their in-game performance.

CARBONCONNECT

ERGOCONNECT

The new shape and structure of the toe cap creates more wrap of the forefoot, with extension into the quarter package to increase torsional stiffness, allowing for better ergonomical structure to relieve pressure around the toes.

HOW TO MEASURE

- For best results, take measurements over undergarments.
- Hold tape measure firmly, not tightly.
- Keep tape measure parallel to the floor.
- Match your measurements to the above size chart. If measurements fall between sizes: order smaller size for tighter fit or the larger size for a looser fit.
- If measurements for chest and waist correspond to two different suggested sizes, order the size indicated by the chest measurement.
- Each material should indicate what silhouette/fit is used (e.g. slim/modern, hockey fit, loose fit), so if it's a slim fit and you normally like a looser fit, you should order up a size.

KRAIBON SHELL

New for the S'24, the 960 Goal Mask features KRAIBON, a material that helps dampen puck impacts and reduce the sound experienced by a goalie on contact.

DCT LINER

The Defense Cloud Tech Liner is more comfortable and retains less water than its predecessor.

DCT
